LAFIN's residency program

LAFIN's residency program is a collaboration with board member Mélanie Schofield, and part of an ongoing, mobile incentive. The residency's location is dependent on Mé, traveling with her around the world, around the apartment.

Art-making and life-making, in the context of this residency, are active and interchangeable activities. Daily life is not only integrally related to the process of making, but is also an end result. Interdisciplinary work and international artists dig their toes into the realm of the fictional, the fraudulent, and the strikingly sincere.
